

Yüksel has added a new project to its ongoing four projects in the University of Dammam of Saudi Arabia. The “Completion of University Campus Infrastructure (Phase-3) Project”, which belongs to the Ministry of Higher Education”, has been awarded to Yüksel in December. The Project consists of construction of the campus gate with all related infrastructure works including earthworks, asphaltting works, concrete works, TV Monitoring System (CCTV), fire alarm system, MV and LV networks, transformers, communication network systems. The completion period of project is 18 months. The total value of the project is SAR 15.7 million (USD 4.2 million) and Yüksel has a partnership with Femco in the project.
