

The ITEC project in Tashkent includes a 4,000-person/day capacity Aquapark and 3,000-person/day capacity Amusement Park. The Aquapark has pools of various sizes, water games, water slides and 4 restaurants. The Amusement Park contains a variety of entertainment units, a horror tunnel, African tour and roller coaster. There are also restaurants and shopping kiosks. When it went into operation, the Aquapark and Amusement Park were the largest such facilities in CIS Countries with all of these characteristics. The project was completed on a turn-key basis including all of the services.
