

As a part of its corporate responsibility and commitment to The United Nations Global Compact, Yüksel has been disclosing economic, social and environmental effects of Yüksel Companies with its stakeholders since 2008.

Under this content, the latest sustainability report of Yüksel was written in accordance with The Global Reporting Initiative (GRI) Guidelines, which is broadly accepted by many companies globally.

Upon its content and third part approval, by Corporate Social Responsibility Association of Turkey (CSR Turkey), about convenience to GRI Guidelines; Yüksel Holding's Sustainability Report can be considered as a pioneer one in most of the sectors that Yüksel has operations in Turkey.

Yüksel's Sustainability Report: Ability to Rise describes Yüksel Companies' general structure, financial performance, employment structure and provides knowledge about the recent social and environmental projects of Yüksel. Furthermore, report contains Yüksel Companies' yearly sustainability targets and views of Yüksel Employees.
