

As a part of its corporate responsibility and commitment to The United Nations Global Compact, Yüksel has been disclosing economic, social and environmental effects of Yüksel Companies to its stakeholders, since 2008. In compliance with the Global Reporting Initiative (GRI) Guidelines, Riseability II describes general structure, financial performance and human resources of Yüksel Companies and provides information about the recent social and environmental projects of Yüksel. Additionally, report contains Yüksel Companies' yearly sustainability targets and views of Yüksel Employees.

The new sustainability report of Yuksel, Riseability II (English version will be available soon):
